FLOOR SCORE!

If you need to build floors in a dangerous situation, the last thing you want is for someone to shoot you down from below. To avoid this and give yourself more time to react, build a floor and then put a roof piece on top of it – it'll take twice as long for enemies to destroy!

TRIED THIS? ☐

BUILD YOUR WAY TO THE TOP!

NIFTY 90S!

If you're in a gunfight, you want to be able to peek and get a good angle for your shots – build a floor, then a wall, then a ramp, and you'll have a 90! Stack these on top of each other and you'll be able to gain even more height on your opponent without being easy to knock to the floor.

TRIED THIS? ☐

EDIT EDGE!

Level up your gameplay by getting to grips with editing! Being able to quickly add doors and arches will be a total gamechanger, strengthening your builds and giving you the edge in a sticky situation.

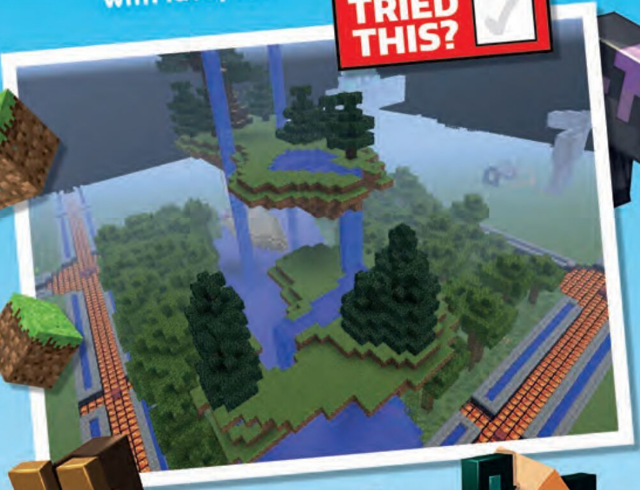
TRIED THIS? ☐

MINECRAFT

FAB FAILS!

If you find yourself high up during a build, there's no shame in making a waterfall. It'll give you a safe way to get up and down, and it's fairly easy to clean up the water after. We recommend always carrying a bucket of water – it helps out with lava, too!

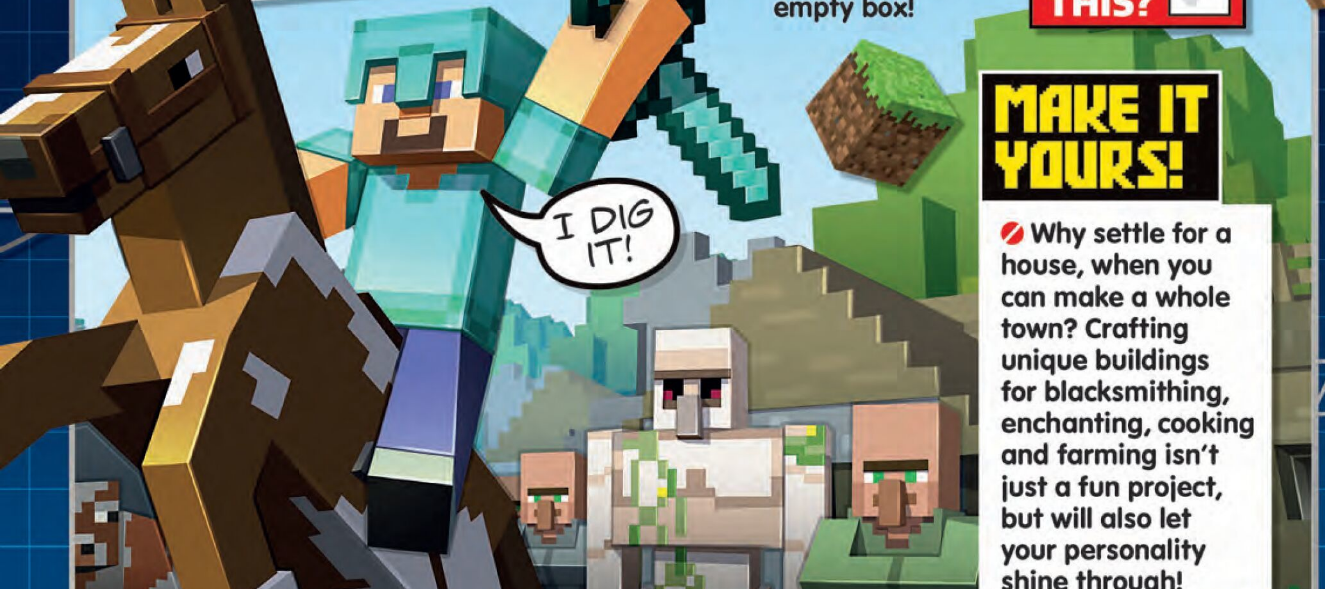
TRIED THIS? ☐



DREAM DECOR!

Another way to bring your builds to life is through decorating! Imagine what you'd want your space to look like IRL and spend time adding in those finishing touches – it'll look so much better than an empty box!

TRIED THIS? ☐



MAKE IT YOURS!

Why settle for a house, when you can make a whole town? Crafting unique buildings for blacksmithing, enchanting, cooking and farming isn't just a fun project, but will also let your personality shine through!

MODEL READY!

If you don't know how to 3D model, that's OK! **Roblox Studio** has loads of premade models you can drag and drop into your game. Experiment with putting things together and get a feel for level design, and then when you're comfortable with those skills you can eventually move on to making your own objects!

TRIED THIS? ☐

SUPER SCALE!

Try placing a **Roblox** dummy in your custom environments while you're building, so you can be totally sure about the scale of your work. If you don't, you're at risk of making things too big or too small, which might cause problems later.

TRIED THIS? ☐

DON'T DOUBLE!

Avoid letting your 3D models overlap, as it can sometimes cause the game to glitch out. You can stop this Z-Fighting from happening by making sure everything is scaled properly and placed next to each other, not on top!

TRIED THIS? ☐

IT'S HAMMERING TIME!

MAKE YOUR DREAMS COME TRUE!

THERMOMETER TIP!

If you've been building in **Dreams**, you'll have spotted the thermometer which tells you how much more you can add to you game. If you went over, the console would struggle to run your game! By using the same object over and over again, like walls and trees, you can make your level bigger without adding thermo.

TRIED THIS? ☑

START SMALL AND WORK UP!

Everyone wants to make a 500-hour sequel to **Crash Bandicoot** straight away, but the best way to learn is to set small goals and achieve them one after another. Come up with a small idea and get that done, and then go a little bit bigger each time! You'll feel more accomplished when you get something done, and as a bonus you'll have more cool things to show your friends.

TRIED THIS? ☑

REMIX DREAMS!

Remixing other people's **Dreams** is a good way to get a look at how they've coded things and how it all works. If you can understand how another player has done something, you'll soon be able to do it for yourself in your own projects! Don't be afraid to use the community creations, either. It's what they're there for!

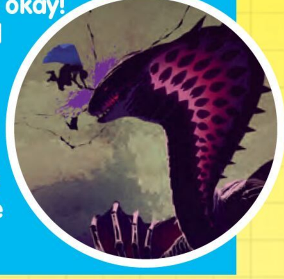
STARTER TIPS!

STUDY UP!

★ It might sound dull but studying up on your game BEFORE jumping in will totally improve your gaming skills! Find some handy tips and tricks or watch some cool YT videos – and you'll come up with an epic game plan in no time, plus you'll impress your pals with your new knowledge!

REVIVE, RELOAD, RESTART!

★ You might not win right away, and that's okay! Even the best gamers in the world started somewhere. Save your game before any tricky parts and reload from where you left off... you'll soon get the hang of it! Practice makes perfect, and games become easier each time you try again!



ACHIEVEMENT: UNLOCKED!

★ Feeling disheartened by your progress? Don't be! Keep a journal of your achievements after each gaming session – how far did you get in the game, and what were your stats? You'll be able to look through that journal and see just how far you've come!

WAYS TO WIN!

Not getting the W? Why not try...

Break it up!

Remember that a longer gaming session won't always boost your skills! Make sure you're taking plenty of breaks to drink, eat a snack and rest your eyes from the screen. It'll stop you from burning out and making mistakes when you're tired, too. We're sure you'll find that your gaming improves if you remember to take some much-needed downtime in between epic gaming sessions!

PREVIEW

MEGA MAN BATTLE NETWORK LEGACY COLLECTION

GENRE: ACTION RPG SYSTEM: NINTENDO SWITCH, PS4, PC

Dive into the Cyberworld and stop it from being destroyed in Mega Man Battle Network Legacy Collection!

Set in the year 200X, everyone has a PET (aka a Personal Terminal) with features like Net Navi — a simulated avatar. This gadget makes life easier, but it's not safe from cybercrime. Lan Hikari, and his NetNavi, MegaMan.EXE, must work together to solve the strange incidents raging across Net Society!

There are 10 action-packed games from the Battle Network series. Intense grid battles against deadly enemies are to be expected as you search the net for Battle Chips to take out your opponents! If you'd prefer to play classic games in high resolution, you can! This feature seems to do a nice job of keeping the retro feel of the game without the jaggy edges. Like Sonic Origins, you can switch this on and off as you please.

Other cool elements include an art gallery and a music player with 188 songs from the Mega Man Battle Network games.

But what we're most excited about is that online play is supported. While you can play Battle Network series games in one place and with extra features, this isn't a totally new game. We would love to see Mega Man in a whole new adventure nobody has ever seen before. However, this doesn't take away from the fact that this game is a great way for new fans to try out some of the classics!

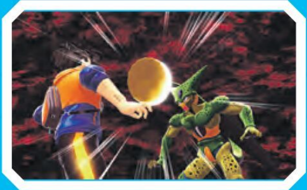
DRAGON BALL: THE BREAKERS



Dragon Ball: The Breakers is unlike any **Dragon Ball** game that players have ever seen before! Rather than playing as one of the mighty **Dragon Team**, you play as an everyday person that must escape from villains from the world-famous manga and anime.

Each match is 7 vs. 1, with one player taking on the role of the big bad guy, while the others try to escape in a time machine sent by **Xeno Trunks**. As the survivors get knocked down one by one, the bad guy grows in power and things will get more difficult.

While **The Breakers** is fun at first, we would like to see more bad guys and maps. The game also feels a bit greedy as it costs money but has a **Battle Pass**, an in-game cash shop and loot boxes.

We think **Dragon Ball** fans will enjoy this game, but it might be worth waiting for updates first.

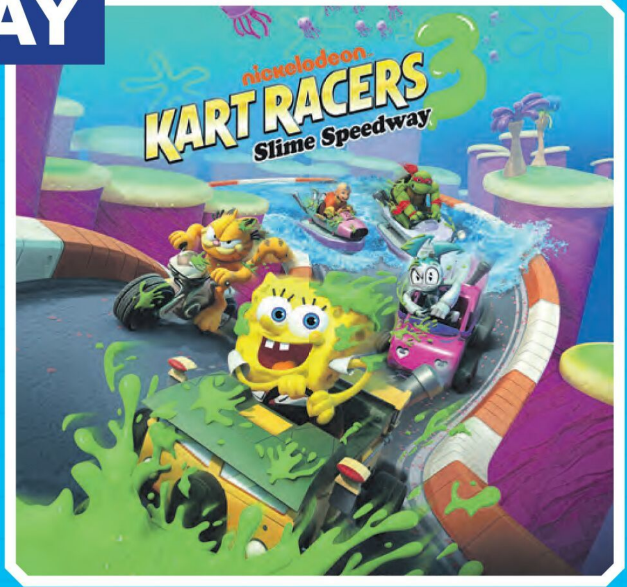
NICKELODEON KART RACERS 3: SLIME SPEEDWAY



Nickelodeon Kart Racers 3: Slime Speedway is a fun racing game starring the **Nicktoons**!

There are loads of cool characters to choose from including **SpongeBob SquarePants**, **Korra**, **Garfield**, the **Teenage Mutant Ninja Turtles**, and more!

There's lots of tracks from different **Nickelodeon** shows and it never gets boring!

What makes **NKR3** stand out is that the characters talk for the first time ever. They do repeat themselves a little, so we'd love to hear them have more dialogue in future games!

There are plenty more changes that make **NKR3** different and worth playing.

There are new boat sections, items, motorbikes, and slime speedways which we loved to see. This helps to mix up the action in exciting ways, even on tracks brought over from the first two games.

If you're into kart racers, don't give this one a miss. It's really fun, especially if you like playing with your friends online!

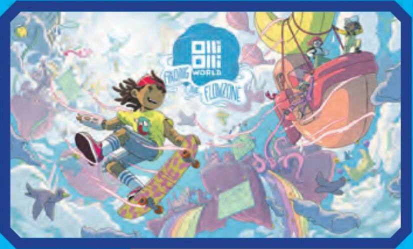
OLLI OLLI WORLD: FINDING THE FLOWZONE DLC



Finding the Flowzone is the second and final expansion to the epic skating game **Olli Olli World**. Somewhere in the cotton candy clouds is the long-lost **City of Radlantis** and it's up to you to find it!

The **Radmospheric Three** join you on your quest but the only problem is their map has gone missing. Locate the torn pieces across the **Flowzone** to help you find your way to the ancient skate-cropolis.

Windzones is a new mechanic which really speeds up the pace. Before players could only skate left and right, but this pushes you in every direction! Plummeting beneath the clouds is tonnes of fun and it feels like there is more to explore in each level.

If you thought the base game was tricky, **Finding the Flowzone** really pushes your skating skills to the limit. You do get a heads-up if a course might a be a bit difficult for you. However, there's plenty to master if you're up for a challenge!

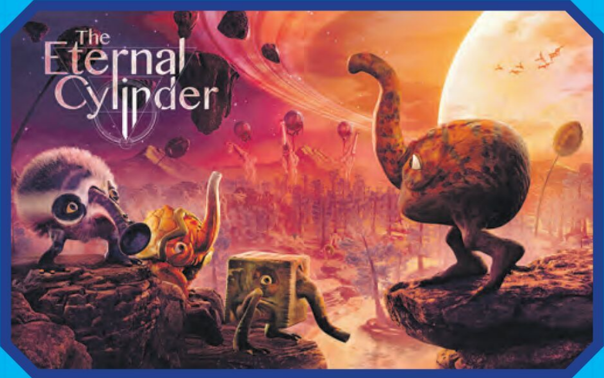
THE ETERNAL CYLINDER



Love cute creatures and exploring weird worlds? **The Eternal Cylinder** is the game for you! You'll take control of a herd of creatures called **Trebhum**, which mutate and evolve as they grow, even combining with other **Trebhums** to make something totally new – you'll find there's a huge range of these critters!

But mutating and evolving isn't all you'll worry about. You've got to make sure those cute little blobs survive! All the while **The Eternal Cylinder** itself looms ahead, threatening to obliterate everything in its way – including **Trebhums**!

Don't worry, there is a safe space that they can roam in, so you can enjoy all the weird worlds and other creatures the game has to offer!

The storyline behind **The Eternal Cylinder** kept us totally gripped, and there was plenty of open-world exploration beyond the story, too – in fact, we would have liked more of this! It kept the game super interesting, especially with the HUGE range of **Trebhum** mutations there were to find!

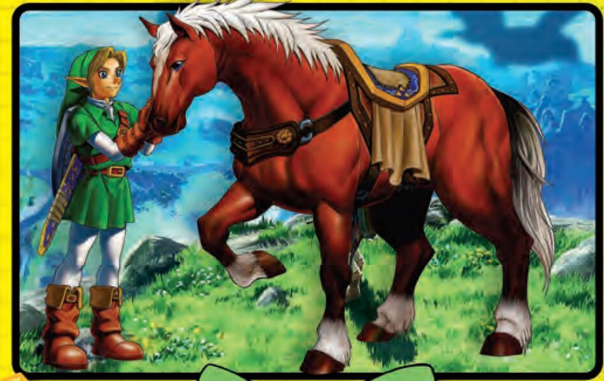
TOP 10 SIDEKICKS

EVERY PLAYER 1 NEEDS A PLAYER 2!

10 EPONA FROM LEGEND OF ZELDA

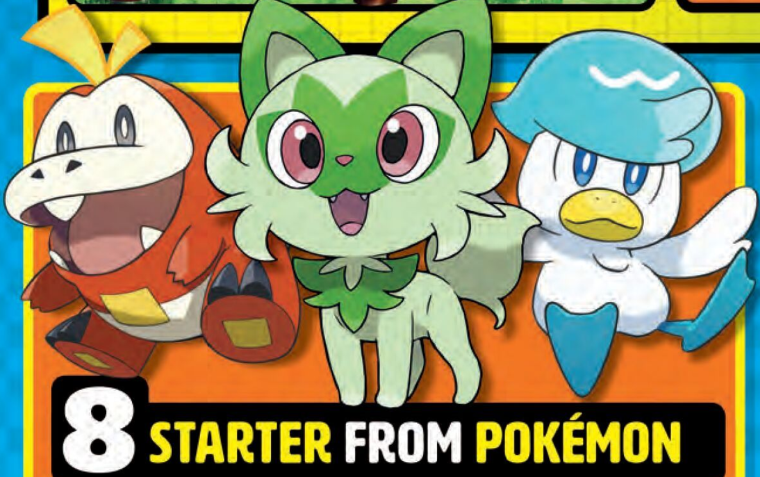
■ Although she disappeared in recent games, Epona was Link's trusty steed for many games! You can even still find her in BOTW!



CAN YOU FIND ME?

9 HIREABLE NPC FROM FORTNITE

■ From Lt. John Llama to Meowscles, the hireable NPCs in Fortnite are some of the most epic sidekicks you can find! You'll need to search for them on the map – but it's worth it!



8 STARTER FROM POKÉMON

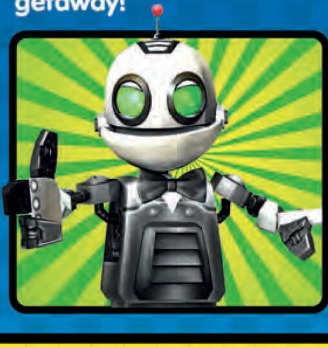
■ With each new game, a new set of Pokémon besties arrives! Now we've got Fuecoco, Sprigatito or Quaxley – your first Pokémon sidekick will be by your side throughout the whole game!

7 GOOEY FROM KIRBY

■ The friendliest blob in all of Dreamland! Kirby's best friend is made of evil dark matter – but that doesn't stop him helping Kirby out! With powers like Copy Ability, Splash and Sizzle, we'd love to have a sidekick like Gooey!

6 CLANK FROM RATCHET AND CLANK

■ **Ratchet's** best buddy is a super smart bot who can command other bots to do his bidding! He can also turn himself into a jetpack for **Ratchet** when he needs a speedy getaway!



5 DIDDY KONG FROM DONKEY KONG

■ **Donkey Kong's** little buddy is a bit more speedy and agile than his friend, and always willing to get him out of tricky situations!

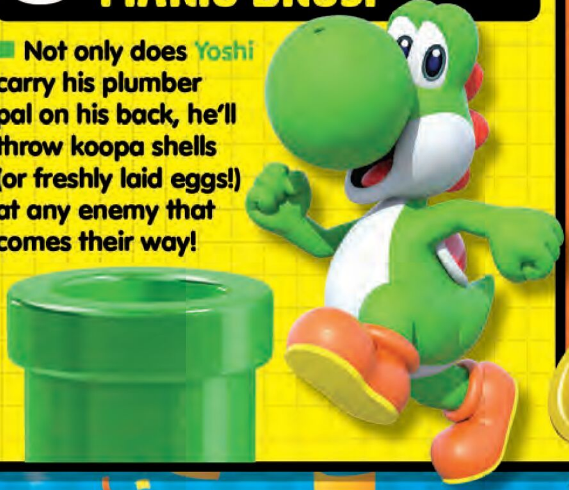
3 YOSHI FROM SUPER MARIO BROS.

■ Not only does **Yoshi** carry his plumber pal on his back, he'll throw koopa shells (or freshly laid eggs!) at any enemy that comes their way!



2 TAILS FROM SONIC

■ Before meeting **Sonic**, **Miles 'Tails' Power** was made fun of for having two tails! Then he became the hedgehog's sidekick, and his double-tail became a superpower – he can rotate them like a helicopter!

1 LUIGI FROM SUPER MARIO BROS.

□ A brother is a friend for life – and maybe the ultimate sidekick?! **Luigi** may have his own series of games, but he'll always be best known for helping **Mario** protect the **Mushroom Kingdom**!

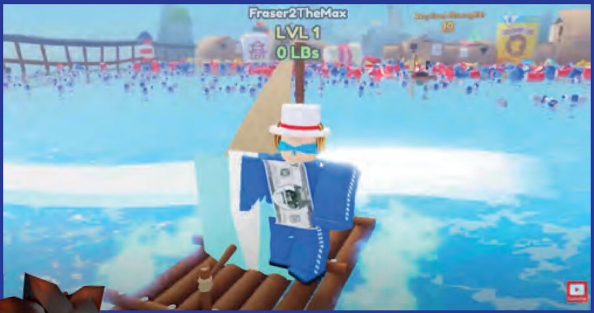
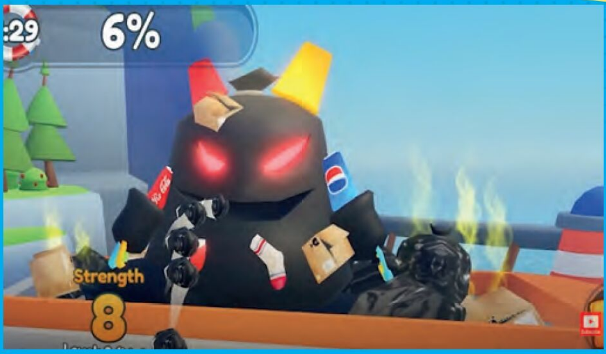
ROBLOX ROUND UP!

Each month we check out **Fraser2TheMax's** fave **Roblox** game. This month, it's **Sea Cleaning Simulator**!

WHAT IS IT?

"In this game, you sail off into the sea. However, instead of being a pirate hunting for treasure, you're the janitor of the ocean! Gathering trash and recycling has never been so easy! When you collect enough, you can use the trash to upgrade your boat or unlock new friends to help you! Once your boat is strong enough, you can venture into more difficult zones with more trash for you to pick up!"





BEST BIT!

"My favourite part of this game is the good feeling you get from picking up the cans and plastics lying around. It makes you feel like you're helping the ocean and all the fantastic little fish swimming around in it, and the big fish too!"
